## **REPORT OF SUMMARY PLAN INFORMATION**

### **2022 Plan Year**

In accordance with ERISA §104(d), the Trustees of the 32BJ/Broadway League Pension Fund (the “Plan”) are providing the following Report of Summary Plan Information to the union that represents Plan participants and the employers obligated to contribute to the Plan.

Except as otherwise specified, all information in this Report pertains to the 2022 Plan Year.

#### **1. Contribution Schedule and Benefit Formula Information.**

##### Contributions

The Plan is funded by employer contributions in accordance with the terms of the collective bargaining agreements. During 2022, the contribution rate for all contributing employers was \$65 per week.

##### Benefits

The Plan provides four types of pension benefits (regular pension, early retirement pension, deferred pension and disability pension). Generally, a participant vests with five or more years of vesting service. A vested participant is entitled to receive a regular pension at age 65 or older, if the participant has earned at least twenty pension credits and has worked in covered employment for at least fourteen weeks in a calendar year which began after the participant reached age 60. A participant’s monthly regular pension benefit is calculated based on the applicable pension rate multiplied by the participant’s number of accrued pension credits not to exceed the applicable maximum pension credit limit. The monthly pension amount will also depend on the form of benefit payment elected by the participant.

**Regular Pension:** Effective January 1, 2023, for participants who earn an hour of service on or after December 1, 2021, the amount of the regular pension is the number of pension credits multiplied by \$46 to a maximum of \$1,380. If the participant earned an hour of service on or after December 1, 2013, but did not earn an hour of service on or after December 1, 2021, the amount of the regular pension is the number of pension credits multiplied by \$40 to a maximum of \$1,200.

**Early Retirement:** A participant may retire with an Early Retirement Pension if they are at least age 62 but less than 65 and have earned at least 20 pension credits. The benefit is calculated in the same way as a Regular Pension with a reduction of ½ of 1% for each month payments are commenced before age 65.

**Deferred Pension.** Effective January 1, 2023, for participants who earn an hour of service on or after December 1, 2021, the amount of the monthly deferred pension is the number of pension credits multiplied by \$41.40 to a maximum of \$1,242. If the participant earned an hour of service on or after December 1, 2013, but did not earn an hour of service on or after December 1, 2021, the amount of

the monthly deferred pension is the number of pension credits multiplied by \$36 to a maximum of \$1,080.

Disability Pension: A participant may retire with a Disability Pension if they become totally and permanently disabled, have at least 15 pension credits, and earned at least ¼ pension credit in the 12 consecutive months before the disability began, and have been totally and permanently disabled for at least 6 months. The Disability Pension benefit is calculated in the same way as a Regular Pension.
